INTRODUCTION

Congratulations: you've found one of the decent ones. He's passed the initial screening, stayed the distance and is committed enough to want to move in with you. No more commuting to see each other, unless it's from the bathroom to the bedroom.

But seeing more of each other doesn't necessarily mean you get more of what you had before. Living together is an exciting transition, but a big one too and not something for the ill-prepared. Reading this book will make the change less hit and miss and more a case of domestic bliss.

PRACTICALITIES

NUTRITION

Blokes consider there to be four major food groups: beer, meat, cheese and chips. This will be self-evident if you pack him off to the supermarket. Men don't like to follow lists, so sending him shopping will be futile if you really need something.
